The Institute for Infectious Animal Diseases
Undergraduate Internship Program

Program Overview
Interested junior and senior undergraduate students majoring in science, technology, engineering, and mathematics (STEM) and agricultural education and sciences from around the United States are invited to apply to the IIAD Undergraduate Internship Program. Selected interns will be matched with IIAD scientist, education, or agricultural Extension mentors for paid 10-week summer internships gaining hands-on experience while working on projects related to the detection, control, and mitigation of high consequence transboundary animal diseases.

Eligibility Requirements
- US Citizenship
- Full-time student status at time of internship
- Minimum 3.0 GPA on 4.0 scale
- Application submitted no later than February 11, 2016
- Valid health insurance during course of internship

Internship Requirements
- Attend orientation in April (conducted via webinar)
- Must be located at or be willing to relocate to the site of the internship for the full course of the 10-week internship (relocation and travel costs will not be covered).
  - Participating IIAD scientists and educators are located around the United States. Internships will occur at the location of mentors’ laboratories, companies, or universities. Go to http://iiad.tamu.edu to see where internships took place in 2015.
- Complete a 10-week internship with an IIAD scientist or educator
- Conduct a research or training briefing at internship site
- Maintain a weekly training log
- Submit a 10-page summary report
- Complete and submit all required forms

Program Timeline
- January 2016: Call for undergraduate applications
- February 2016: Interviews of top candidates
- April 2016: Orientation via webinar
- June – August 2016: Internship
- September 2016: Intern reports submitted to IIAD

To Apply to this Program
To learn more or apply to the IIAD Internship Program go to http://iiad.tamu.edu. Applications must be submitted to iiad@ag.tamu.edu no later than 5 pm, US Central Time on Friday, February 11, 2016.
