11am - 12pm PT | 12pm - 1pm MST
1pm - 2pm CST | 2pm - 3pm ET

Vaccine Planning & Resources

Vaccine Status & Modeling

Vaccine Strategy & Prioritization

Exercise FAQs

Does our state need to have a vaccine plan to participate? Who can join the exercise?

No, all participating states are welcome!

There will be states at many different stages of vaccine planning participating in this exercise. **Feel free to include anyone who is important to your vaccine planning efforts.**

How do you envision state teams participating during the exercise?

We suggest state teams try and join the virtual sessions from the same room if at all possible **following their local COVID-19 guidelines.** Regardless of participants joining individually or as a group, **we will ask groups to designate one speaker to represent each state.** We have already heard from some states who know they will be unable to attend the exercise together locally. **They are planning to hold internal state planning meetings in advance of the exercise. This is certainly not a requirement, but we wanted to share with the larger group.**

Will the topics & questions for the exercise be shared ahead of time?

Yes, we will be sharing a full list of questions in advance. Each group will have the time to meet internally and discuss with their stakeholders in preparation for the exercise.
